

“I would highly recommend Milnor’s PulseFlow® tunnel to anyone.”

– Keith Galloway, *Louisiana Commercial Laundry, Scott, LA*

Keith and Cathy Galloway, owners of Louisiana Commercial Laundry, purchased their first Milnor G3 CBW System in 2002. With the support and service of Pellerin Milnor, the Galloway’s were able to grow their business enough to warrant a 2nd laundry in North Louisiana. They once again chose Milnor and purchased a PulseFlow® System.

Keith Galloway notes “Our semi-automated setup affords us the water and utility saving benefits without all of the capital expense of a fully-automated system. The Milnor PBW™ provides the unique capability of being able to expand for future growth. This also kept down our initial investment cost. We looked at all of the foreign competitors and it came down to the fact that we felt that no one could provide the level of service and support that our Milnor distributor could. Simply put – they are open, when we are open.”

For more information about how PulseFlow® Technology can increase your production, contact an authorized Milnor distributor or call 504-712-7656.
