

“It did everything they said it would and more.”

– Jerry Fry, *Service Linen Supply*

Service Linen Supply replaced some of their washer-extractors with a 10-mod 92048 PulseFlow® tunnel. Their water usage dropped 71%, with no change in wash/rinse quality. And, the new tunnel was so efficient, Service Linen was able to reduce their 2nd shift!

Learn more about this radical approach to tunnel washing and how you can save labor, water and time with PulseFlow Technology.

Contact an authorized Milnor distributor or call 504-712-7656.
